## 1. Introduction

Picture Dial lets you dial contact, send SMS and browse website using picture ids. No need to remember phone numbers again or what the person looks like. Just snap the picture with the camera application or use any GIF, PNG or JPG picture and use it in Picture Dial.

You can import the Contacts database or manually add custom picture ids. Picture ids can be cropped and saved.

## 2. System Requirement

- BlackBerry® OS 4.2 and higher
- 88K of free main memory.
- Optional SD Card

### 2.1 Compatibility

- BlackBerry® Pearl, Curve, Bold, 8700 series and 8800 series
- BlackBerry® Phone and Address applications

## 3. Installation

### 3.1 OTA Installation

If you have data connection you can install Picture Dial using the BlackBerry® Browser application.

1. Start the Browser application
2. Select GoTo from the menu
3. Enter [www.toysoft.ca/ota/PictureDial.jad](http://www.toysoft.ca/ota/PictureDial.jad)
4. Press ENTER to start the download

### 3.2 Application Loader Installation

On your desktop computer do the following:

1. Start the BlackBerry® Desktop Manager
2. Double click on the Application Loader icon
3. Click Next
4. Click on the Add button
5. Browse for the file PictureDial.alx in the Picture Dial folder where you unzipped the file.
6. Click Next to install

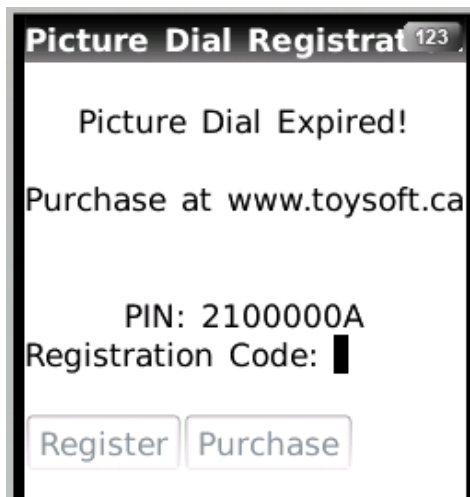

## 4. Launching Picture Dial

To launch Picture Dial, look for the icon  in the Home screen and click on it.

## 5. Registering Picture Dial After You Purchased Picture Dial

After you have installed Picture Dial, launch Picture Dial and you will see the following screen below.

Your registration code is included in the invoice email that you have received. Enter the code in Registration Code field and click the **Register** button. You will only have to do this once.

To purchase Picture Dial using your BlackBerry® you can click on the Purchase button. For a 7 day trial click on the Trial Mode button.

## 6. User Interface

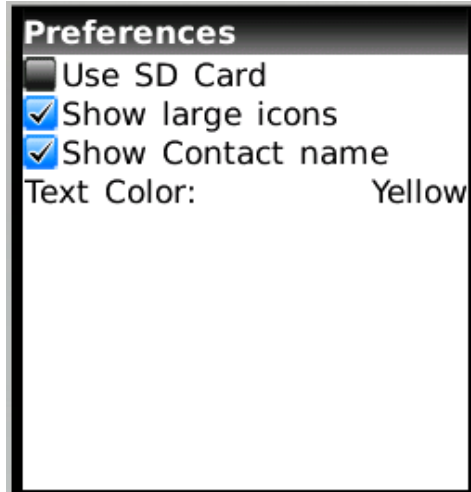

To assign a new picture ID press the Menu key and select New Picture Dial... All of your custom picture IDs will be displayed on the main screen. You can edit and delete picture IDs here.

### 6.1 Import Contacts

To import Contacts select **Import Contacts...** from the menu. All of your contacts will be imported to Picture Dial including their picture if exists.

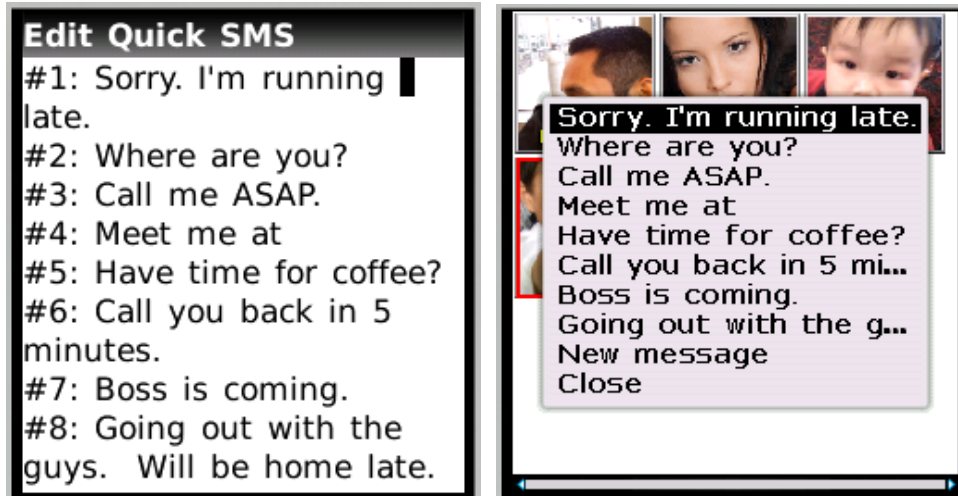

You should not import if you have 100's of contacts because this will take up internal memory. The maximum number of picture id is 512.

## 7. Preferences

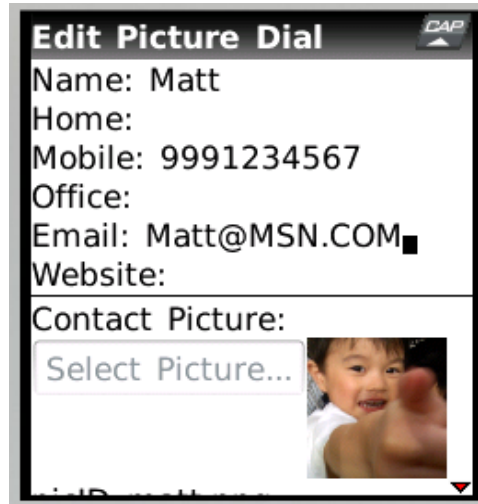

Controls	Description
<input type="checkbox"/> Use SD Card	Check this if you want to save the picture thumbnails to the SD Card. If you switch back and forth from Internal and SD card then some pictures may not show up because they are not there.
<input checked="" type="checkbox"/> Show large icons	Check this if you want to show large icons.
<input checked="" type="checkbox"/> Show Contact name	Show the contact name in the icon.
Text Color: Yellow	Text color for the contact name

## 7.1 Edit Quick SMS

When sending a SMS message you can select from the default list or type in a custom message.

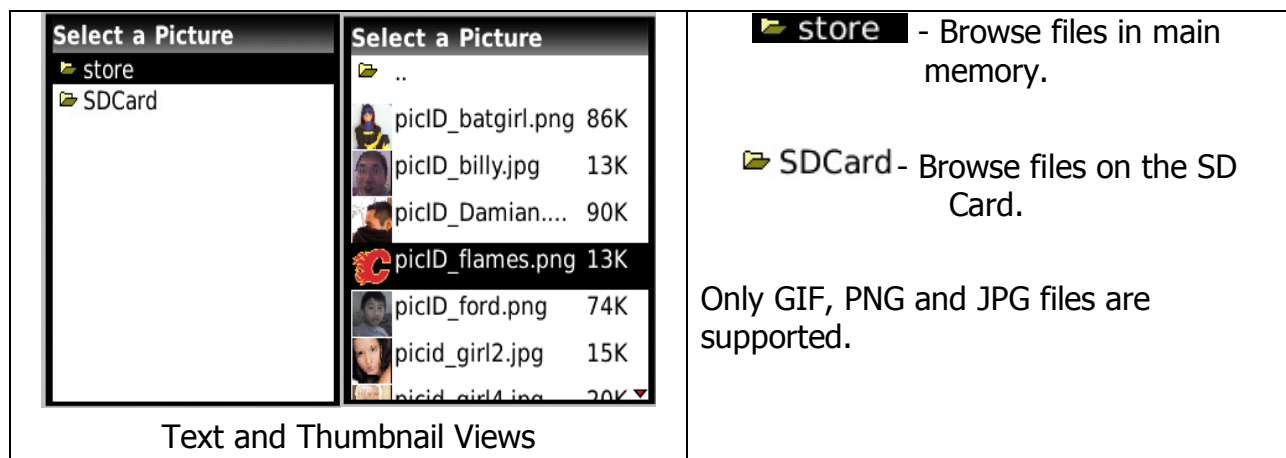

## 8. Custom Picture Dial Filter

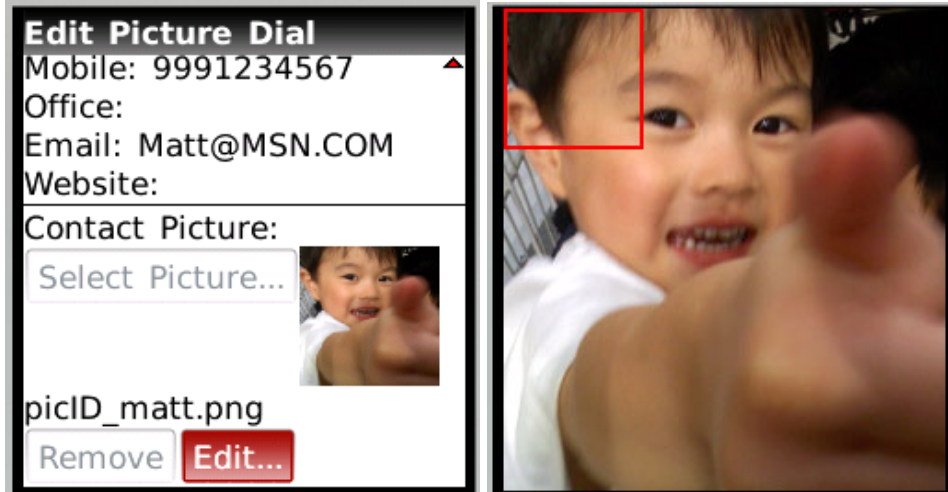

Filters must be created in order for Picture Dial to work. You can create as many picture dial as you want up to 512. Each filter can have up to 3 different phone numbers.

To perform a Contact lookup press the menu key and select Contact Lookup... Picture Dial will automatically retrieve the Contact name and phone numbers and populate the fields on the screen.

To select a custom picture click on the Select Picture... button and the following screen will be opened.

## 8.1 Edit Picture ID

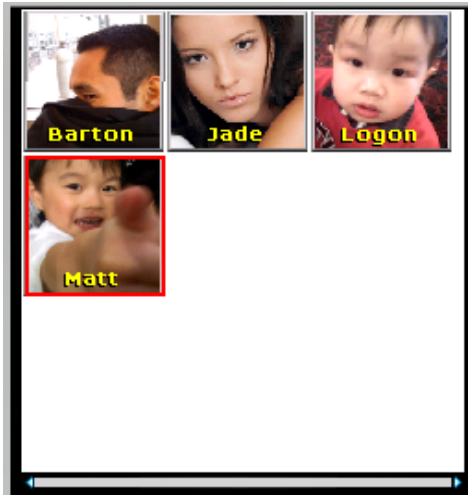

To crop the picture select the Edit button. This will display the picture in full screen. Use the thumbnail to move the red rectangle box around the screen. To crop the picture press the thumbnail button.

### Zooming Short Key Cuts

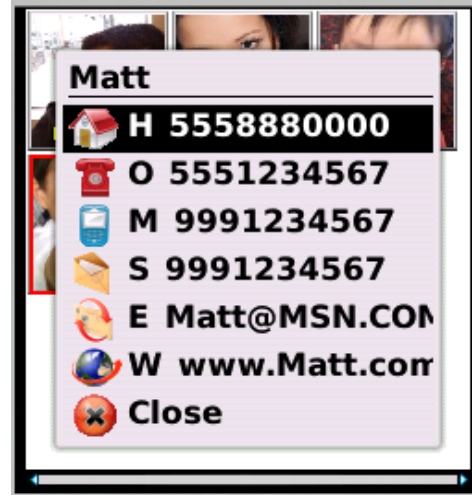

Use the following keys to zoom in and out of the picture.

t	zoom out
u	zoom in
g	zoom out x
j	zoom in x
b	zoom out y
m	zoom in y

## 9. How to use Picture Dial

Picture Dials

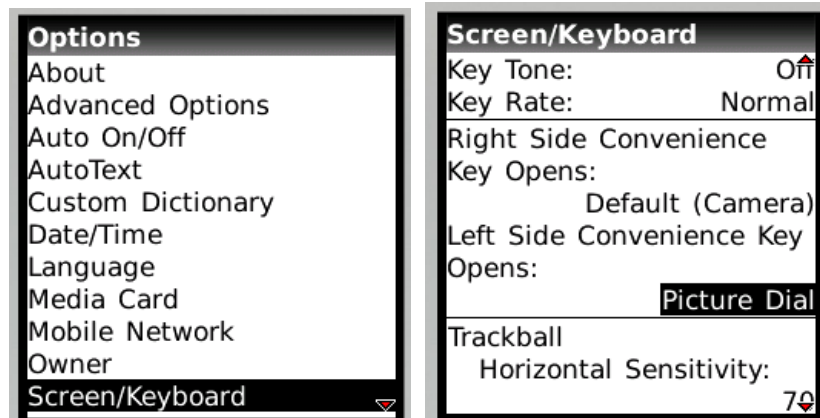

Dial Screen

To dial, send SMS or browse a contact website select the Picture ID and press the thumbnail button. The Dial Screen will be opened. You can then select the function you wish to perform.

### 9.1 Assigning the Quick Key

You can assign the Left or Right Convenience button to launch Picture Dial. This will give you quick access to your picture dial. To do this launch the **Options** application on the Home screen. You will see the following screens.

Now anytime you can press the Convenience button to launch Picture Dial.

## 10. User License
